# Comprehensive Energy Solutions

## What We Do

LAMPS91 ENERGIES LTD delivers complete power solutions tailored to your needs. From cutting-edge solar installations to industrial electrical systems, we bring technical expertise and proven reliability to every project.

- Solar Power Systems (Grid-tied, Hybrid & Off-grid)
- Electrical Installation & Maintenance
- Industrial & Commercial Power Solutions
- Backup Power & Energy Storage
- Power Audits & System Upgrades
- IoT Smart Metering Solutions

# Why Choose LAMPS91 ENERGIES LTD

## Licensed Professionals

Our team comprises certified electrical engineers and technicians with extensive field experience, ensuring every installation meets the highest industry standards and safety protocols.

## Industrial Expertise

Specialized knowledge in commercial and industrial power systems, from manufacturing plants to large-scale facilities, delivering solutions that maximize efficiency and minimize downtime.

## Quality Equipment

We partner with internationally recognized manufacturers and suppliers, providing warranty-backed equipment that delivers reliable performance and long-term value for your investment.

## Safety Focused

Strict adherence to electrical codes and safety regulations ensures every project protects people, property, and equipment while maintaining full compliance with Kenyan energy standards.

## After-Sales Support

Our commitment extends beyond installation with responsive maintenance services, troubleshooting support, and system optimization to keep your power flowing smoothly year after year.

## Smart Technology

Advanced IoT smart metering systems provide real-time energy monitoring, helping you track consumption, optimize usage patterns, and reduce operational costs through data-driven insights.

# Industries We Serve

## Homes & Apartments

Residential solar systems and electrical installations that reduce electricity bills while providing reliable backup power for families across Kenya.

## Businesses & Offices

Commercial power solutions designed to maintain operations, protect equipment, and lower energy costs for enterprises of all sizes.

## Healthcare Facilities

Critical power systems for hospitals and clinics ensuring uninterrupted medical services with backup solutions and stable electrical infrastructure.

## Educational Institutions

Sustainable energy for schools and universities, creating conducive learning environments while demonstrating environmental responsibility to students.

## Financial Services

Reliable power for Saccos and saving groups, protecting financial operations and member services with continuous electricity supply.

## Manufacturing Plants

Heavy-duty industrial electrical systems and solar solutions that power production lines while reducing operational expenses and improving efficiency.

# Smart Metering with IoT Technology

## Real-Time Energy Intelligence

Our advanced IoT smart metering solutions revolutionize how clients monitor and manage their energy consumption. These intelligent systems provide instant visibility into power usage patterns, enabling data-driven decisions that optimize efficiency and reduce costs.

Smart meters connect seamlessly to mobile apps and web dashboards, delivering real-time alerts, consumption analytics, and detailed reporting. Perfect for commercial facilities, industrial operations, and institutional clients seeking to maximize their energy investments through precise monitoring and control.

01

## Installation & Setup

Professional installation of IoT-enabled meters integrated with your existing electrical infrastructure

03

## Analytics & Insights

Comprehensive reports identifying usage patterns, peak demand periods, and optimization opportunities

02

## Real-Time Monitoring

Instant access to live consumption data through intuitive mobile and web platforms

04

## Cost Reduction

Data-driven strategies that lower energy expenses and improve operational efficiency

# Featured Projects

## Mini-Grid Solar Installations

Community-scale renewable energy systems bringing reliable electricity to remote areas, powering homes, businesses, and essential services with sustainable solar technology.

## Commercial Rooftop Solar

Large-scale solar arrays for businesses maximizing available roof space, generating clean energy and delivering significant savings on monthly electricity expenses.

## Electrical Installations

Complete electrical infrastructure for facilities including distribution panels, lighting systems, and power networks designed for safety, efficiency, and future expansion.

## Power Backup Systems

Integrated battery storage and inverter solutions ensuring uninterrupted operations during outages, protecting critical processes and providing peace of mind.

# About LAMPS91 ENERGIES LTD

## Who We Are

LAMPS91 ENERGIES LTD is an electrical and renewable energy company providing reliable, safe, and sustainable power solutions across Kenya. We combine technical excellence with customer-focused service to deliver systems that exceed expectations.

Our team brings years of experience in solar installations, electrical contracting, and industrial maintenance. We understand the unique energy challenges facing Kenyan organizations and design solutions that address real-world needs with proven technology.

## Our Mission

To deliver efficient, safe, and sustainable energy solutions that empower homes, businesses, and institutions to achieve their goals through reliable power infrastructure.

## Our Core Values

### Safety

Uncompromising commitment to safety protocols

### Integrity

Honest communication and ethical business practices

### Innovation

Embracing new technologies and solutions

### Quality

Excellence in every project and installation

### Reliability

Dependable service and lasting performance

# Leadership Team

Our success is built on the expertise and dedication of our leadership team. With decades of combined experience in electrical engineering, renewable energy, and business management, they guide LAMPS91 ENERGIES LTD toward excellence in every project.

## **Vincent Otieno**

### **CEO & Director**

Vincent provides strategic leadership and vision for LAMPS91 ENERGIES LTD, driving business growth and ensuring operational excellence. His expertise in business development and client relations has positioned the company as a trusted energy solutions provider across Kenya.

## **Wycliff Okoth Okumu**

### **Lead Engineer & Technical Director**

As a qualified electrical technician and solar systems expert, Wycliff brings extensive hands-on experience in industrial maintenance and renewable energy installations. He oversees all technical operations, ensuring projects meet the highest standards of quality and safety.

# Client Success Stories

“

LAMPS91 delivered our solar system on time and exceeded expectations. The installation was professional, and we've seen immediate savings on our electricity bills. Their technical support has been outstanding.

— **Corporate Client, Nairobi**

”

“

The backup power system installed by LAMPS91 has been a game-changer for our clinic. We no longer worry about power outages affecting patient care. The team was knowledgeable and efficient throughout the entire process.

— **Healthcare Administrator, Central Kenya**

”

“

Their industrial electrical work transformed our manufacturing operations. The new power distribution system is reliable, and their IoT metering helps us track and optimize energy usage. Highly recommended for serious business applications.

— **Production Manager, Industrial Facility**

”

## Trusted Partnerships

We work with recognized local and international suppliers to ensure quality, reliability, and warranty-backed solutions. Our partnerships with leading equipment manufacturers guarantee access to the latest technology and continuous technical support for all installations.

# Get Started Today

## Contact LAMPS91 ENERGIES LTD

Ready to transform your energy future? Our team is standing by to discuss your solar, electrical, or smart metering needs. Whether you're planning a residential installation or a large industrial project, we'll design a solution that delivers results.

- **Phone:** 0795876555 / 0711691612
- **Email:** lamps91energies@outlook.com
- **Address:** 55634-0100, Nairobi, Kenya

Schedule a consultation with our engineers to explore how we can power your success with reliable, sustainable energy solutions.
